

# PEACE PROJECT 2021 & BEYOND—A SUMMARY

VISION: Support at-risk youth to be successful in school despite rigorous and interesting courses, while also becoming top notch leaders in their schools and communities. While this can be done within the context of a teacher's classroom, Peace Project 2021 & Beyond, is designed to operate outside of a classroom, and to not add one more stressor or one more assignment to already overworked teachers. Peace Project 2021 & Beyond is based on three basic principles being put into practice: Do Good; Be Good; Do No Harm. The students will be a part of a youth leadership teams working together that can be based in an afterschool program, or in the community. First year implementation will be with 9<sup>th</sup> graders. Second year it is proposed to allow both 9<sup>th</sup> and 10<sup>th</sup> graders to participate, and so on.

## BEGINNING APRIL 2023: ESSENTIAL & BASIC COST:

- For reading the outline and implementing Peace Project 2021 & Beyond: \$500/year payable to ©2021 Charlotte M. Steen, 3174 205<sup>th</sup> Avenue, Glenwood City, WI 54013.

## CONSULTATION FEE:

- One day workshop for teachers and/or administration on ideas of how to implement Peace Project 2021 & Beyond in their schools or school districts: \$1000 plus travel expenses.
- Ongoing consultation work (i.e. daily involvement in the implementation) for a school or a school district for one year of implementation: \$30,000.

## ADDITIONAL SUGGESTED COSTS:

- Competitive pay for the Tutors, the CSL Coordinator, the Do No Harm Presenters, and for the Meditation teachers.
- Note: After the yearly copyright fee to Charlotte M. Steen, it is of course possible to implement the entire Project without additional costs. However, I believe that there are many people in the community who tirelessly give quite generously to the schools and to the community, and that it is only right to begin to recognize their contributions financially.
